

New Phonetics Technology LLC

Speak English with NEEPO - The Fastest Way to speak English on Earth!

Why NEEPO? The purpose of NEPO (NEEPO), New English Phonetic Orthography, is to help teach students with little or no English speaking or listening comprehension skills to speak English appropriately and to do so in the shortest time possible.

NEEPO is cutting-edge technology found in a digital e-learning course, Speak English with NEEPO. The text of the course is written in Pure NEEPO. It teaches students the 36 sounds of English and the 10 combination sounds with one corresponding symbol, not the sounds that letters make. It is not Phonics. It is a New Phonetics Technology.

These sounds and symbols are used to form words, sentences, and pattern drills with built in grammar that are associated with pictures for comprehension. The students acquire a "special reading ability" used to make possible a type of ESL study otherwise impossible in the past.

The results of the use of the "NEEPO" phonetic system show students are happier, relieved, and very excited about their ability to learn to speak English quickly, correctly and without an accent.
